In response to Notice of abandonment July whatever

If you had fully read my reply you would have noticed it is not a notice of Abandonment.

It is a Notice of Rebellion against a Government Department that is Regulatorially Oppressive

You may feel you are entitled to my work because of your designation but that would be theft

Your office actions have some validity as to my all to obvious errors but on the whole they

have in the claims denials displayed a contempt to some of my legitimate contributions .

As Washingtons Employees you no doubt must march on crushing my application but it will

be the last one that you will receive from me other then provisionals which you may not publish.

My Public statement on the issue is that the Patent Departments corrupt and should be Boycotted
